CHECK LIST - Is Your Song Ready to Produce?

For broadcast production, make sure you have the following:

- **Worktape** IE live cell phone recording or other pre-production recording, or live performance in studio with chords (guitar or piano)
- **Title**
- **Lyrics**
- **Melody** of the lyric to be sung
- **Chords** - No chord chart is required, chords audible on worktape or performed by the artist in studio will do.
- **Order of parts**
- **Tempo** (if different from worktape)
- **Key** (if different from worktape)
- **Production Sample(s)** - existing songs which illustrate the direction of production in instrumentation, genre and mood

If any of these elements are absent, incomplete or uncertain, the song will require **pre-production**. A pre-production session usually does not take long if the song is near complete. The goal of pre-production is to determine and/or verify chords, melody of lyric to be sung, order of parts, key, tempo and stylistic direction. Pre-production is billed hourly and is not included in production cost (as of January 2018).

At the start of a broadcast production, please either bring this info in, or it email to PeterSwann@Rogers.com:

- 1> **LYRICS** - Final and complete lyrics named by the song title as a text document IE MySong.txt, MySong.doc, MySong.PDF, or text in the body of an email (not a picture).
- 2> **WORKTAPE** - Rough live recording IE cell phone recording with chords and vocal. Please name worktape audio files by the song title. Any audio format is acceptable. Worktape is not required if the song can be performed live with chords in studio (guitar or piano).
- 3> **PRODUCTION SAMPLE(S)** - Existing song(s) which illustrate the desired direction of production in instrumentation, genre and mood. Send YouTube links, other links or searchable song titles.
- 4> **TEMPO** - If different from worktape, please indicate.
- 5> **KEY** - If different from worktape, please indicate.
- 6> **INSTRUMENTATION** - If different from productions sample(s), please indicate.
- 7> **NOTES** - Any other info that would help guide the production.

Changes After Start of Recording/Production

Changes requested by the artist to any of these elements after the start date of recording and production will be billed hourly:

- Changes to lyrics requiring re-sings and edits
- Changes to melody of the lyric requiring re-sings and edits
- Changes to the order of parts (sections), including the addition or removal of parts (sections)
- Replacement of requested instrumentation
- Tempo or Key Changes

Payment Methods

Cash, Check, Online Interac, Online E-Transfer, Paypal, Bitcoin, Litecoin, Ethereum. Checks payable to "Attitude Sound Design". All Online transfers payable to PeterSwann@Rogers.com. I will create a new addresses for each crypto payment.

Legal Stuff

Producer vs. Engineer Accreditation

"Produced by" accreditation only applies in cases where all audio elements were recorded at Attitude Productions, and where no other Producer(s) or Co-producer(s), other than an Executive Producer, are involved. Please confirm wording of accreditations prior to public releases.

Publishing

Any changes to lyrics or melody of the lyrics provided by the Producer and used in the final release constitute writing credit to the Producer in accordance with North American copyright laws. Percentages should be agreed on by producer and artist prior to finalizing production and registered with SOCAN prior to release.
